## About US

Lawrence Wilkerson and Kathy Cituk have combined their empathic skills to develop, patent and present this unique tool for improving couples communication and relationships. A couple, themselves, they each score an astonishing overall Empathy Index of below One.

Larry, who wrote and designed the original concept, brings technical expertise to this partnership. He has spent most of his professional career in the computer industry, and was recently head of a successful software company. The father of two and grandfather of three, he deeply understands the need for empathic understanding in both personal and business relationships.

Kathy is the one who makes the *Empathy-Index* work as a relationship tool. With over twenty years' experience in teaching, counseling and healing, Kathy is a published author, editor and a Clinical Hypnotherapist. Combining her background in corporate training with deep relaxation and self-awareness techniques, Kathy created a stress-busting course for individuals and business clientele. Her unique blend of empathy, understanding and communication skills have helped many find a deeper sense of balance and well-being.

Both Larry and Kathy live and work in Marin County, California.
